Adapt 2 Row Complementary Support Seat

- Designed for users who require a greater degree of support than the standard Concept 2 seat, including elderly people and those with learning disabilities, cerebral palsy, dyspraxia and incomplete/low level spinal cord injury
- A2R Complementary Seat: manufactured of glass fibre with a polished gel coat.
- Complementary Shell Insert: a dual layer of 18mm Extreme Density Foam and a 18mm heat sensitive visco-elastic memory foam which reacts to the heat of your body and moulds itself to your shape, distributing your weight evenly across the entire surface.
- Inserts are covered in 6oz PU coated nylon waterproof cover.
- Lumbar Support: restraint with Velcro fixings.
