Elevation Series 95T IFI Inclusive Treadmill

- Advanced elements like our patented FlexDeck™ Shock Absorption System and Lifespring™ shock absorbers make working out on a Life Fitness Treadmill incredibly comfortable
- Embossed controls and dome switches on the new console overlay increase tactility to allow visually impaired users to easily navigate commands
- Embossed controls on the new activity zone overlay allows visually impaired users to easily navigate the most-used controls
- Contrast lines, increased logo size and an additional logo on the running belt indicates to users that the treadmill is in operation
- Platform reduces the step-up height allowing both disabled and non-disabled users easier access to the product

Key Features

Clear Console Overlay

New Activity Zone Overlay

High Contrast Belt

Step Up Platform
